# LINK

4-universe DMX control solution that combines iPad app-based software with a tactile hardware interface.

LINK is a 4-universe controller designed to control compatible DMX devices with control from the dedicated Airstream LINK iOS App for iPad.

LINK creates a private standalone 2.4 or 5 GHz DSSS (Direct Sequence Spread Spectrum) WiFi network, which coexists in busy RF environments alongside other wireless technologies. Wired connection possible via Apple Camera USB Adapter.

LINK is ideal for small production events, nightclubs, bars or any event or venue which requires the flexibility of wireless iPad control, and who are looking for a robust, 4 DMX universe APP based lighting control solution.

The LINK controller is compatible with the dedicated Airstream LINK iOS APP for iPad.

iPad not included.
