

End Box® for Internally Wired Lighting Bars

The Robolights® End Box® is designed to be fitted to the end of an internally wired lighting bar (IWB) providing a neat termination box where the circuits of the IWB can connect with fixed wiring or multicore cables.

Designed to fit to 'standard' 48mm aluminium scaffold tubing using its own internal tube clamp, the End Box is supplied with all necessary fittings and terminals to connect up to 12* individual circuits. The End Box is manufactured from mild steel and is finished in durable, satin black powder coat paint.

*An additional 6 way terminal kit can be fitted to allow up to 18 circuits in total.

End Box Technical Information:

Enclosure material	18 SWG mild steel
Dimensions	180mm x 180mm x 72mm
Weight	1.6kg (complete)
Tube Clamp	Accepts 48.3mm OD tube
L&N terminal rating	380VAC, 20A
L&N terminal cable capacity	6mm CSA
L&N terminal material	Brass with steel screws
Earth terminal bar cable capacity	1 x 25mm (max) and 8 x 16mm (max) CSA
